Patents

- [1] Hyundong Shin, Muhammad Asad Ullah, and Awais Khan, “Quantum anonymous method for quantum networks,” Korea Patent 10-2656351, April 05, 2024
- [2] Hyundong Shin, Muhammad Asad Ullah, and Saw Nang Paing, “Counterfactually implemeting universal logic gate and calculate method using the same,” Korea Patent 10-2652870, March 26, 2024
- [3] Hyundong Shin, Fakhar Zaman, and Saw Nang Paing, “Method and apparatus for counterfactual controlled quantum teleportation in an integrated quantum information processing system,” Korea Patent 10-2643265, February 28, 2024
- [4] Hyundong Shin, Uman Khalid, and Junaid ur Rehman, “Apparatus and method of measuring quantum correlation in single qubit metrology in quantum information integrated processing system,” Korea Patent 10-2636303, February 07, 2024
- [5] Hyundong Shin, Syed Muhammad Kazim, and Muhammad Asad Ullah, “Bayesian inference based quantum state tomography apparatus and method thereof,” Korea Patent 10-2624011, January 08, 2024
- [6] Hyundong Shin, Syahri Ramadhani, and Muhammad Asad Ullah, “Method of performing quantum state tomography in maximally noisy quantum depolarizing channel and apparatus thereof,” Korea Patent 10-2591035, October 13, 2023
- [7] Hyundong Shin, Muhammad Asad Ullah, and Uman Khalid, “Metrologically multipartite entanglement measurement method under quantum many-body effects,” Korea Patent 10-2574230, August 30, 2023
- [8] Hyundong Shin, Muhammad Asad Ullah, and Ahmad Farooq, “Quantum state tomography apparatus, method and program,” Korea Patent 10-2562767, July 28, 2023

- [9] Hyundong Shin and Muhammad Asad Ullah, "Method and apparatus of counterfactual clock synchronization," Korea Patent 10-2436948, August 23, 2022
- [10] Hyundong Shin, Youngmin Jeong, and Fakhar Zaman, "Method of quantum superdense coding and quantum communication system using thereof," Korea Patent 10-2274792, July 02, 2021
- [11] Hyundong Shin, Junaid ur Rehman, and Fakhar Zaman, "Method of quantum duplex coding and quantum communication system thereof," Korea Patent 10-2260603, May 31, 2021
- [12] Hyundong Shin, Youngmin Jeong, and Dung Phuong Trinh, "Method of modelling channel and transmitting molecules for molecular communication," U.S. Patent US 11005723 B2, May 11, 2021
- [13] Hyundong Shin, Awais Khan, Ahmad Farooq, Young Min Jeong, and Junaid ur Rehman, "Method of distributing quantum entanglement and quantum communication system thereof," Korea Patent 10-2237183, April 01, 2021
- [14] Hyundong Shin, Muhammad Asad Ullah, and Junaid ur Rehman, "Quantum synchronization method without shared phase reference and quantum communication system thereof," Korea Patent 10-2231135, March 17, 2021
- [15] Hyundong Shin, Youngmin Jeong, and Junaid ur Rehman, "Quantum channel capacity estimation method and quantum communication system thereof," Korea Patent 10-2231130, March 17, 2021
- [16] Hyundong Shin, Junaid ur Rehman, and Uman Khalid, "Quantum measurement method using perturbation sensitivity and quantum system using thereof," Korea Patent 10-2211060, January 27, 2021
- [17] Hyundong Shin, Junaid ur Rehman, and Awais Khan, "Method of finding entanglement constraint in multiqubit system and quantum communication system thereof," Korea Patent 10-2203527, January 11, 2021
- [18] Hyundong Shin, Youngmin Jeong, Muhammad Asad Ullah, and Fakhar Zaman, "Method of detecting inaccurate slave clocks," Korea Patent 10-2201814, January 06, 2021
- [19] Hyundong Shin, Youngmin Jeong, and Dung Phuong Trinh, "Method of acquiring connectivity information in molecular communication," Korea Patent 10-2201264, January 05, 2021
- [20] Hyundong Shin, Youngmin Jeong, and Ahmad Farooq, "Method of quantification of multipartite entanglement and quantum system using thereof," Korea Patent 10-2172652, October 27, 2020
- [21] Hyundong Shin, Junaid ur Rehman, and Ahmad Farooq, "Method of distributing quantum entanglement and quantum communication system," Korea Patent 10-2158777, September 16, 2020
- [22] Hyundong Shin, Youngmin Jeong, and Ahmad Farooq, "Method of classifying multipartite quantum entanglement state and quantum system performing thereof," Korea Patent 10-2129391, June 26, 2020

- [23] Hyundong Shin, Youngmin Jeong, and Muhammad Asad Ullah, “Method of synchronizing quantum network and quantum system performing thereof,” Korea Patent 10-2128362, June 24, 2020
- [24] Hyundong Shin, Youngmin Jeong, Jeong San Kim, Ahmad Farooq, and Junaid ur Rehman, “Method of distributing optimally quantum entanglement and quantum communication system,” Korea Patent 10-2122799, June 09, 2020
- [25] Hyundong Shin, Youngmin Jeong, and Uman Khalid, “Method of measuring quantum correlation in mixed-state quantum metrology,” Korea Patent 10-2120663, June 03, 2020
- [26] Hyundong Shin and Youngmin Jeong, “Quantum system performing quantum channel estimation and method of modeling quantum channel,” U.S. Patent US 10666462 B2, May 26, 2020
- [27] Hyundong Shin, Youngmin Jeong, and Fakhar Zaman, “Method of identifying Bell type states,” Korea Patent 10-2108892, May 04, 2020
- [28] Hyundong Shin, Youngmin Jeong, and Ahmad Farooq, “Method for quantum entanglement transformation using machine learning and quantum system using thereof,” Korea Patent 10-2068241, January 14, 2020
- [29] Hyundong Shin, Youngmin Jeong, and Dung Phuong Trinh, “Method of modelling channel and transmitting molecule in molecular communication,” Korea Patent 10-2036068, October 18, 2019
- [30] Hyundong Shin and Youngmin Jeong, “Quantum system performing quantum channel estimation and method of modelling quantum channel,” Korea Patent 10-2032144, October 08, 2019
- [31] Hyundong Shin, Youngmin Jeong, and Ahmad Farooq, “Method of classification and quantification of multipartite entangled states and quantum system using thereof,” Korea Patent 10-2019387, September 02, 2019
- [32] Hyundong Shin, Youngmin Jeong, and Fakhar Zaman, “Method of apparatus and system for analysizing of counterfactual Bell states,” Korea Patent 10-2017839, August 28, 2019
- [33] Hyundong Shin, Youngmin Jeong, and Junaid ur Rehman, “Method of securing quantum information and system thereof,” Korea Patent 10-2017835, August 28, 2019
- [34] Hyundong Shin, Youngmin Jeong, and Muhammad Asad Ullah, “Method of switching quantum channel and system thereof,” Korea Patent 10-1984963, May 27, 2019
- [35] Hyundong Shin, Saad Qaisar, Youngmin Jeong, and Junaid ur Rehman, “Method and device for deterministic secure quantum communication,” Korea Patent 10-1965229, March 25, 2019
- [36] Hyundong Shin, Youngmin Jeong, and Muhammad Asad Ullah, “System of frequency synchronization, apparatus of frequency synchronization, method of frequency synchronization and method of the same for quantum clock,” Korea Patent 10-1953632, February 25, 2019

- [37] Hyundong Shin and Youngmin Jeong, “Quantum system performing quantum channel estimation and method of modelling quantum channel,” Korea Patent 10-1953720, February 25, 2019
- [38] Hyundong Shin, Youngmin Jeong, and Muhammad Asad Ullah, “Method of synchronization in quantum network,” Korea Patent 10-1945761, January 30, 2019
- [39] Hyundong Shin, Junaid ur Rehman, Saad Qaisar, and Youngmin Jeong, “Method and device of performing quantum key distribution (QKD) among plurality of devices,” Korea Patent 10-1924100, November 26, 2018
- [40] Hyundong Shin, Dung Phuong Trinh, and Youngmin Jeong, “Molecular communication system, method of communicating based on molecule and molecular reception nanomachine,” Korea Patent 10-1855819, May 02, 2018
- [41] Hyundong Shin, Junaid ur Rehman, Youngmin Jeong, and Saad Qaisar, “Method of distributing key for multi-party in quantum communication, method of performing quantum communication using the same and quantum communication system performing the same,” Korea Patent 10-1836947, March 05, 2018
- [42] Hyundong Shin, Saad Qaisar, Youngmin Jeong, and Junaid ur Rehman, “Method of distributing secret key with low-power in quantum communication, method of performing quantum communication using the same and quantum communication for performing the same,” Korea Patent 10-1826065, January 31, 2018
- [43] Hyundong Shin, Dung Phuong Trinh, Trang Ngoc Cao, and Youngmin Jeong, “Molecular communication system, method of communicating based on molecule, molecular transmitter and molecular receiver,” Korea Patent 10-1817122, January 04, 2018
- [44] Hyundong Shin, Junaid ur Rehman, and Youngmin Jeong, “Method of distributing key in quantum communication, method of performing quantum communication using the same and quantum communication system performing the same,” Korea Patent 10-1808544, December 07, 2017
- [45] Hyundong Shin, Vien Van Mai, and Youngmin Jeong, “Distributed wireless sensor network and method of detecting information in distributed wireless sensor network,” Korea Patent 10-1773330, August 25, 2017
- [46] Hyundong Shin and Youngmin Jeong, “Wireless communication system and method of performing wireless communication,” Korea Patent 10-1770601, August 17, 2017
- [47] Dongguk Lim, Hyundong Shin, Youngmin Jeong, and Hangyu Cho, “Apparatus and method for measuring location of user equipment located indoors in wireless network,” U.S. Patent US 9720069 B2, August 01, 2017
- [48] Hyundong Shin, Saad Qaisar, and Youngmin Jeong, “Method of quantum drawing, method of performing quantum communication using the same and quantum communication system for performing the same,” Korea Patent 10-1740384, May 22, 2017
- [49] Hyundong Shin, Trang Ngoc Cao, Dung Phuong Trinh, and Youngmin Jeong, “Molecular communication system and method of operating molecular communication system,” U.S. Patent US 9621283 B1, April 11, 2017

- [50] Hyundong Shin, Thang Van Nguyen, Dung Phuong Trinh, and Youngmin Jeong, “Wireless communication apparatus using vision feature, method of localization using the same and wireless communication system including the same,” Korea Patent 10-1635421, June 27, 2016
- [51] Hyundong Shin, Thang Van Nguyen, and Youngmin Jeong, “Wireless communication apparatus, method of localization using the same and wireless communication system including the same,” Korea Patent 10-1622536, May 13, 2016
- [52] Hyundong Shin and Youngmin Jeong, “Method and apparatus for secrecy transmitting in wireless environment,” Korea Patent 10-1535643, July 03, 2015
- [53] —, “Apparatus and method for semi-centralized downlink beamforming in two-tier networks,” Korea Patent 10-1208084, November 28, 2012
- [54] —, “Apparatus and method for downlink beamforming in two-tier networks,” Korea Patent 10-1208083, November 28, 2012
- [55] —, “Apparatus and method for transmitting secrecy data on a number of transmission channels in a multi-channel communication system,” Korea Patent 10-1207000, November 26, 2012
- [56] —, “Cognitive radio terminal and cognitive radio method of cognitive radio terminal,” Korea Patent 10-1151026, May 22, 2012
- [57] Jungah Park, Doug Young Suh, Hyundong Shin, and Een-Kee Hong, “Mobile telecommunication system including a plurality of relay stations and method of transmitting data packets for the mobile telecommunication system,” Korea Patent 10-1137014, April 09, 2012
- [58] —, “Relay station and method of relaying data packets for the relay station,” Korea Patent 10-1082544, November 04, 2011
- [59] Jae Hong Lee, Tae Min Kim, and Hyundong Shin, “Turbo encoded hybrid automatic repeat request system and error detection method,” U.S. Patent US 7234095 B2, June 19, 2007
- [60] —, “Turbo coded hybrid automatic repeat request system and error detection method,” Korea Patent 10-0584170, May 22, 2006
